

# RCL 2020 SUSTAINABILITY TARGETS

Oceans are 71% of the planet and 100% critical to our business. Conserving their health is paramount.

## 2020 ENVIRONMENTAL GOALS

## TARGET

## PROGRESS

### Emissions Reduction

Reduce greenhouse gas emissions 37% below 2005 levels

Goal achieved ahead of 2020 target

### Sustainable Tours

Offer 1,000+ sustainable tours

Goal achieved ahead of 2020 target. Currently offering 1,400 GSTC-certified tours to guests

### Sustainable Seafood Sourcing

Source 90% of wild-caught seafood from MSC-certified fisheries

Currently conducting ship audits to obtain chain-of-custody

Source 75% of farmed seafood from ASC-certified farms in North America and Europe. Both targets include fisheries and farms in process toward certification

Obtain chain-of-custody certification from fishery or farm to table

### Sustainable Destinations (Public)

Support GSTC Destination Assessment at two destinations

RCL helped support GSTC Destination Assessments in Cozumel, Mexico; Roatan, Honduras and Belize

### Sustainable Destinations (Private)

Create plan to certify RCL's private destinations

RCL has completed GSTC Destination Assessments in CocoCay and Labadee and has planned to have its private destinations certified to GSTC's destination standard

### Sustainable Sourcing

Develop strategies to improve sustainable sourcing practices on commodities with the highest environmental impact

Identified Coffee, Tea and Sugar as key commodities to develop improvement strategies

### Plastics Reduction

Reduce single-use plastics fleetwide

Plastic straws, stirrers and picks have been removed fleetwide. We continue to pursue alternative to condiment packages, plastic bags and water bottles

### Waste Reduction

Reduce waste to landfill by 85% from 2007 baseline

On track to achieve goal
