

RCL 2020 SUSTAINABILITY TARGETS

2020 ENVIRONMENTAL GOALS	TARGET	PROGRESS	
	Emissions Reduction	Reduce greenhouse gas emissions 35% below 2005 levels	Goal achieved ahead of 2020 target
	Sustainable Tours	Offer 1,000+ sustainable tours	Goal achieved ahead of 2020 target. Currently offering 1,500 GSTC-certified tours to guests
	Sustainable Seafood Sourcing	Source 90% of wild-caught seafood from MSC-certified fisheries Source 75% of farmed seafood from ASC-certified farms in North America and Europe. Both targets include fisheries and farms in process toward certification Obtain chain-of-custody certification from fishery or farm to table	Currently conducting ship audits to obtain chain-of-custody
	Sustainable Destinations (Public)	Support GSTC Destination Assessment at two destinations	RCL helped support GSTC Destination Assessments in Cozumel, Mexico; Roatan, Honduras and Belize
	Sustainable Destinations (Private)	Create plan to certify RCL's private destinations	RCL has completed GSTC Destination Assessments in CocoCay and Labadee and has planned to have its private destinations certified to GSTC's destination standard
	Sustainable Sourcing	Develop strategies to improve sustainable sourcing practices on commodities with the highest environmental impact	Identified Coffee, Tea and Sugar as key commodities to develop improvement strategies
	Plastics Reduction	Reduce single-use plastics fleetwide	Plastic straws, stirrers and picks have been removed fleetwide. We continue to pursue alternatives to condiment packages, plastic bags and water bottles
	Waste	Reduce waste to landfill by 85% from 2007 baseline	Goal achieved ahead of 2020 target
